

Book Reviews On End Times And Revelations

For those of you who are looking for good bottom-line knowledge on end time events as specifically prophesied to occur by our Lord through His Word, here is a list of some of the best books on this hot topic.

All of these authors are true experts in this field and you cannot go wrong with all of their teachings on this subject. Many people have a hard time in understanding the Book of Revelation, but all of these authors will help you interpret and understand this most important book in our Bible.

I believe we are truly living in the end times and each Christian should have some of this bottom-line knowledge under their belts so they can help explain this to both other Christians who do not have much knowledge on this subject, and also to other nonbelievers who are too sensing something in the air with the way many of the end time events are now starting to come to pass.

1. "Are We Living in the End Times?" by Tim LaHaye and Jerry Jenkins

The co-authors of the best-seller "Left Behind" series have written a very good factual book on all of the main end time events that will be occurring leading up to the visible return of Jesus back to our earth. Tim LaHaye has written several good non-fiction, factual books on end time events and I believe this to be one of his better books. Goes into very good detail on all of these end time events along with all of the Scripture verses to back it all up.

2. "Revelation Unveiled" By Tim LaHaye

Another very good solid book from Tim LaHaye. This book in particular is the best I have seen from him to-date. Besides going into the end time events that will be occurring leading up to Jesus' 2nd coming to our earth, he goes further into all of this showing what is going to happen in the 1000 year millennium kingdom when Jesus will literally rule this earth from the city of Jerusalem - and then what we will get with the final ending to all of it - the New Heaven and New Earth. This is not only the best book he has done to-date, but it is one of the best books on this topic we have to-date in the Body of Christ. I can't recommend this particular book highly enough.

3. "The End Times Controversy" by Tim LaHaye

Tim has written another good book on end times, but this one is to answer some of the critics who have a hard time in interpreting the Bible from more of a literal point of view. There is a big debate whether or not there will be a rapture, whether or not a real antichrist will really come, etc. Tim answers many of these questions in this book. Highly recommend this book if you want answers to some of the debates going on with this topic.

4. "The Popular Encyclopedia of Bible Prophecy" by Tim Lahaye and Ed Hindson

Another very good solid book from these 2 authors. This is a beautiful hard-bound book that covers specific topics in alphabetical order so you can find what you may looking for at a very fast glance. I would highly recommend this book for those of you who are really wanting to have a firm and solid grasp on all of the basics on this topic. I consider this to be one of the better reference books on this topic. At a very quick glance, you will be able to locate very good Bible commentary on the specific end time events that will be occurring. This book is one of my personal favorites and I refer to it quite often in my studies on end times.

5. "The Late Great Planet Earth" by Hal Lindsey

This book started it all! Written back in the 70's, this book is still considered a classic. I believe Hal Lindsey was one of the first men that God anointed in our day and age to be able to understand and then explain all of these end time events to the rest of the Body. He is one of the most anointed men in the Body of Christ on this topic.

6. "Prince of Darkness" by Grant Jeffrey

Author Grant Jeffrey is another highly anointed man of God in this area. This man is one of the best in this area and this book in particular goes into very good and easy to understand detail on all of these end times events. This book is a paperback, but it is 350 pages in length, and it is LOADED with an incredible amount of knowledge and revelation in this area. This book is also another one of my personal favorites and I would highly recommend this book to anyone wanting to further their education in this area. He goes into the New World Order that will be coming and some of the things that are occurring right now that will allow the Antichrist a world platform in which to step up on.

7. "The Jerusalem Countdown" by John Hagee

Brand new book from noted pastor, author and Bible teacher John Hagee. As you all know, the country of Iran is emerging as the next major world threat with their intentions of wanting to develop nuclear weaponry. John has ties in with some of higher ranking leaders in Israel and he gives you some very good insight as to what is really going on behind the scenes with Iran and Israel. This book has been flying off the shelves at some of the bookstores I regular frequent where I live. This is a very, very good book bring you real live up-to-date information on this building crisis in the Middle East.

8. "101 Most Asked Questions About the End Times" by Mark Hitchcock

Mark Hitchcock is another solid anointed man of God on being able to understand and teach on end times. This book is a bit different in that he gives you some of his knowledge and expertise in this area by specifically answering some of the most asked questions on this topic. He is another very good author and teacher on this topic and he has a very good way of explaining everything to you so that you can fully understand all of it.

9. "Iran: The Coming Crisis" by Mark Hitchcock

Another very good book just released on the current crisis we now have with Iran. Mark gives you some good historical insight into Iran and how we have got to this point with them now wanting to literally conquer the entire world through their new president. This book, and the above book from John Hagee on this building crisis, are two of the best current books we have to-date on this unfolding dilemma.

About the Author
