

Add Drama To Your Home Or Garden With Slate Wall Fountains

There are a huge variety of different types of wall mounted fountains, including slate wall fountains which easily add the perfect mix of drama and tranquility to any setting, indoors or out.

Slate wall fountains are available in numerous styles, colors, shapes and sizes. There are slate wall fountains that fit into corners or alcoves, tall, free standing slate wall fountains, and wall fountains that are small and light enough that they can be mounted on walls or gazebos. Slate wall fountains are primarily constructed from slate, but they often include other composites that add tiny details.

For example, some slate wall fountains have steel or copper accents, carvings or stained color accents and often other special details that make them unique. Slate wall fountains also come in a variety of different sizes, so no matter how much space you have, there is no doubt that you will be able to find the slate wall fountains that you feel will meet your desires. Are you working with limited floor space? Rather than opting for a wide alcove or wall fountain, choose a lean and tall fountain that reaches high but is not spread out. Or select hanging slate wall fountains, that easily mount to walls or other flat vertical surfaces. Find out more about wall fountains by checking out <http://sandyalne.blogspot.com/2007/11/wall-fountains.html>.

Slate wall fountains are an excellent choice for people who are looking for wall fountains with a rustic or natural feel. Because they are largely constructed from slate, they look very natural and tend to blend in well in numerous garden and yard settings. Slate wall fountains are primarily constructed to be used outdoors, but there is no reason why they cannot be used indoors in certain situations as well. Natural slate wall fountains tend to be heavier than the average hanging wall fountain, meaning that most natural slate wall fountains are free standing alcove, tall or wide wall fountains.

Slate wall fountains are sometimes carved to create much more creative, bold and beautiful water features. There are a number of images that are especially popular for slate wall fountains, such as angels, cherubs, flowers, and even recreations of old antique European statues and fountains from periods in the past. No matter what style or time period you are interested in, you should have no trouble finding slate wall fountains that meet your needs and match nicely with your indoor or your home, patio or garden.

Carved slate wall fountains add a stunning boldness and flair to an outdoor garden setting, or an indoor setting as well. No matter what you have in mind for your new wall fountains, there are surely going to be a number of slate wall fountains that can meet them, and that can exceed your expectations as well. Be sure to shop around and explore all of your options before bringing home the slate wall fountains that you think will coordinate, because there are literally hundreds of options out there that need to be explored before a purchase is made.
